### Description

Classic training jacket is made of 60 g/sqm polyester which helps to be a tough resistance against wind, it also reacts good on the first rain drops. This jacket is also equipped with lycra (190 g/sqm) panels on the back (near the shoulders) for best performance while running, there is also lycra on the armpit which continues to the end of the sleeve (on the bottom side). The placement of the lycra panels helps the athletes to move their hands freely while training
